Last Month We Heard About Offensive Cyber Security

We were lucky to hear from Tom Giboney (who responded to the offer sent out to all members to speak on whatever topic they like). Tom gave a great talk on offensive Cyber. Here's some information on the topic:

This month, we feature a small business in our "Company Spotlight." Want to be featured? Contact Victor Fishman at vaf140130@utdallas.edu

Company Spotlight - Intelliconnect

Intelliconnect, LLC is a small technology company with big ideas. In partnership with the University of Texas, Dallas, (UTDallas) Texas Analog Center of Excellence (TxACE), Intelliconnect, LLC has set its sights on developing technology that makes "dumb" connectors "smart". Given the millions of miles of the electrical/electric inter-connect harnessing installed within ground vehicles, ships and aircraft, our technology provides situation awareness of the data communication harnessing at the physical level. Early detection of failure modes such as corrosion, mechanical fatigue due to vibration or shock, is detected early resulting in lower cost, highly effective maintenance and improved safety to equipment and human life. Intelliconnect, LLC is very fortunate to be a part of Lone Star

NDIA chapter and continues to receive the mentoring level of interest by major defense contractors within our chapter.
