

Michael Holmes is an Associate Vice President for Business Development with Butler America Aerospace LLC, a global aerospace engineering services company, where he is helping clients push the boundaries in developing the next generation of air and space craft. Over his 24-year career he has lead engineering analysis efforts on a number of ground breaking composite and metallic aircraft. Mr. Holmes, a Canadian native, received a Bachelor's of Science in Mechanical Engineering from the University of Manitoba and a Master's of Science in Aerospace Engineering from Wichita State University. Mr. Holmes is an active member of the community as a board member of the Dallas Museum of Art young professionals and as a speaker advisor for the World Affairs Council of Dallas/Ft. Worth. Mr. Holmes enjoys sailing and is an avid cyclist.
