

**Kiley J. Wren, BS, BA, MS, MBA**

*Executive Director, Office of Strategic Business Development  
Industry Fellow*

Mr. Wren is Industry Fellow and Executive Director of the Office of Strategic Business Development for the Texas A&M Engineering Experiment Station (TEES), where he leads efforts to develop business strategies and establish strategic relationships with government and industry partners.

He has 25 years of leadership in research, technology and engineering as an executive, business leader, business development consultant, NASA scientist, and entrepreneur. Prior to joining A&M, Wren was part of senior leadership at KBRwyle, where he led systems engineering and integration, program management, and business development efforts. There he co-developed a \$160M per year NASA R&D program, and led business development efforts with private industry, NASA, DOD, and other federal sectors, including principal roles in securing over \$2B of federal business.

Prior to KBRwyle, Wren was with Lockheed Martin Space Operations where he held various senior management positions, and co-authored the NASA Bioastronautics Human Research Roadmap, which defines the research and technology development required for human space exploration. Prior to joining Lockheed, Wren was Director of Operations and General Manager at Control Specialties, Inc., a manufacturer of valves and instruments for the petrochemical industry.
