

Rodney Reddic

Rodney has over 27 years of progressive operations, engineering, and plant management experience, in addition to consulting experience in diverse industries from manufacturing to health care.

Rodney is the Interim Executive Director for the Texas Manufacturing Assistance Center (TMAC) where has spent the past twelve years providing consulting services to TMAC customers through Lean Deployment, Process Improvement, Sustainable Growth and Facilities Layout.

He is an experienced leader with a demonstrated history of working with companies to improve profitable growth and sustainability. Extensive experience working with manufacturing companies develop and implement Strategic Plan(s), Value Stream Mapping/Management, Lean Six Sigma, Continuous Improvement, and Kaizen.

Rodney has a diverse background that lends to his expansive appreciation of the Texas manufacturing industry. This included serving as an Operations Engineer for Eaton Corporation; a Field Engineer for the Texas Engineering Extension Service (TEES); and a Plant Manager for Peerless Manufacturing Company.

He holds a Bachelor of Science in Industrial Engineering from Texas A&M University in College Station, Texas where he was a Presidential Achievement Award recipient.
